PROGRAMME SPECIFIC OUTCOMES

On successful completion of the B.A. Economics program, the students will be able to:

PSO 01.

Gain exposure to the fundamental concepts of Micro and Macro economic theory and demonstrate independent learning, analytical and critical thinking on a wide range of ideas, complex problems and issues from an economic point of view.

PSO 2.

Acquire the capacity to analyse and evaluate the current issues pertains to functions of fiscal policy and monetary policy, financial system, budget and foreign sector and other dynamic issues like growth and progress from an economic perspective.

PSO 3.

Gain awareness of the economic problems and issues related to growth and sustainable development, with respect to local, national and global perspective. Graduates will also be able to expand their skills through the practical application of economic and financial theories with the help of diagrammatical representation, mathematical and statistical tools.

B.A. COURSE OUTCOMES

Name of the Department: Economics
Name of the Course: Microeconomics I
Paper Code: ECC 101
Type of the Course: DSC
No. of Credits: 04
Semester: I
Class: FYBA
Course Objective: To enable students to understand how optimum real life decisions are taken by individuals and firms under situation of scarcity.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECC 101.1.	**Define and describe** basic concepts of microeconomics.	CL1
ECC 101.2.	**Understand** how optimum real-life decisions are taken by individuals and firms under situations of	CL2

Scanned with CamScanner

	scarcity.	
ECC 101.3.	**Demonstrate** and **apply** basic concepts of microeconomics like demand and supply, elasticity, consumer theory and producers' theory in real life decisions.	CL3
ECC 101.4.	**Analyze** and infer the uses of different microeconomic tools and concepts in real-life economic decision making.	CL4

Name of the Department: Economics
Name of the Course: Microeconomics II
Paper Code: ECC 102
Type of the Course: DSC
No. of Credits: 04
Semester: II
Class: FYBA
Course Objective: To enable students to understand how optimum decisions are taken by firms under different market conditions.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECC 102.1.	**Describe** working of firms and industry under different market conditions in product and factor market.	CL1
ECC 102.2.	**Understand** how optimum decisions are taken by firms under different market conditions.	CL2
ECC 102.3.	**Demonstrate** the working of firms and industry under different market structures and theory of factor pricing.	CL3
ECC 102.4.	**Analyze** working of firms and industry under different market structures	CL4

Name of the Department: Economics
Name of the Course: Entrepreneurship Development – I
Paper Code : ECG 101
Type of the Course: GE
No. of Credits: 04
Semester: I
Class: FYBA
Course Objective: To expose students to entrepreneurship and to develop skills to be an effective businessmen and to identify areas of utmost importance in the starting and managing of business.

Scanned with CamScanner

Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECG 101.1.	**Identify** the meaning and need for entrepreneurship.	CL1
ECG 101.2.	**Summarize**the various business opportunities.	CL2
ECG 101.3.	**Discuss** the various legal requirements of business.	CL3
ECG 101.4.	**Point out** the promotional schemes of the government.	CL4

Name of the Department: Economics
Name of the Course: Entrepreneurship Development – II
Paper Code : ECG 102
Type of the Course: GE
No. of Credits: 04
Semester: II
Class: FYBA
Course Objectives: To expose the students to accounting, marketing and financial system for starting, managing and running of business.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECG 102.1.	**Recognize** the various costing and pricing strategies used by the firm	CL1
ECG 102.2.	**Summarize** the various marketing strategies used by the firm	CL2
ECG 102.3.	**Illustrate** the important of resources	CL3
ECG 102.4.	**Distinguish** between the various Acts such as Factories Act, Sales Act and Shop and Establishment Act	CL4

Name of the Department: Economics
Name of the Course: Macroeconomics I
Paper Code: ECC 103
Type of the Course: DSC
No. of Credits: 04
Name of the Teacher: Ms. Yogita Rao
Semester: III
Class: SYBA

Scanned with CamScanner

Course Objectives: To expose students to national income accounting and the role of government, trade and money in the modern economy.

Course Outcomes: At the end of the course students will be to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECC 103.1.	**Examine** national income, calculation methods of national income and concepts related to national income.	CL1
ECC 103.2.	**Identify** the factors determining the national income such as consumption, saving and investment.	CL2
ECC 103.3.	**Calculate** the national income using expenditure method under two sector, three sector and four sector models of the economy.	CL3
ECC 103.4.	**Explain** the concept and the theories of money in a modern economy.	CL4

Name of the Department: Economics
Name of the Course: Macroeconomics II
Paper Code: ECC 104
Type of the Course: DSC
No. of Credits: 04
Semester: IV
Class: SYBA
Course Objectives: To understand how the commodity, labour and money markets interact to determine output, prices and employment.
Course Outcomes: At the end of the course students will be to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECC 104.1.	**Describe**the IS –LM function and curve.	CL1
ECC 104.2.	**Explain** aggregate demand and aggregate supply curve in long run and short run.	CL2
ECC 104.3.	**Explains** definitions, causes and effects of inflation and unemployment and to **identify** the relationship between unemployment and inflation in long run and short run.	CL3
ECC 104.4	**Differentiate**the role of fiscal policy and monetary policy in Economic Stabilization.	CL4

Name of the Department: Economics

Scanned with CamScanner

Name of the Course: Demography and Population Studies I
Paper Code: ECG103
Type of the Course: GE
No. of Credits: 04
Semester: III
Class: SYBA
Course Objectives: To study population dynamics at national and international levels and also to focus on various concepts, theories related to population studies in the context of economic development of India.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECG 103.1.	**Describe** the meaning and nature of demography and its relation with other disciplines.	CL1
ECG 103.2.	**Discuss** the determinants of population change.	CL2
ECG 103.3.	**Illustrate** the factors promoting and retarding the economic development.	CL3
ECG 103.4.	**Explain** the theories of population.	CL4

Name of the Department: Economics
Name of the Course: Demography and Population Studies II
Paper Code: ECG104
Type of the Course: GE
No. of Credits: 04
Semester: IV
Class: SYBA
Course Objectives: To expose students to various concepts concerning population of India and to provide an in-depth understanding of the same and also to make aware the population problems and various measures to tackle it.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECG 104.1.	**Identify** the importance of demographic study in India and to apply this knowledge for the economic growth of the country.	CL1
ECG 104.2.	**Discuss** the India's population characteristics	CL2
ECG 104.3.	**Calculate** fertility and mortality rates in India and to suggest measure for their improvements.	CL3

Scanned with CamScanner

ECG 104.4.	**Analyze** the reasons for migrations and National Population Policy with its objectives, criticisms and implications.	CL4

Name of the Department: Economics
Name of the Course: Financial Economics I
Paper Code: ECS103
Type of the Course: SEC
No. of Credits: 04
Semester: III
Class: SYBA
Course Objectives: To equip students with basics of investment and working of financial ratios.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECS 103.1.	**State** the meaning and importance of investment.	CL1
ECS 103.2.	**Differentiate** between Investments in financial and non-financial assets.	CL2
ECS 103.3.	**Illustrate** different forms of financial investments.	CL3
ECS 103.4.	**Examine** and interpret different types of financial ratios.	CL4

Name of the Department: Economics
Name of the Course: Financial Economics II
Paper Code: ECS104
Type of the Course: SEC
No. of Credits: 04
Semester: IV
Class: SYBA
Course Objectives: To understand security market and its regulatory framework in the context of its performance.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECS 104.1.	**Recall** the role of regulatory framework in India.	CL1
ECS 104.2.	**Interpret** the derivatives market in India.	CL2
ECS 104.3.	**Determine** thevaluation of bond and common stock.	CL3
ECS 104.4.	**Examine** the functioning of security market in India.	CL4

Name of the Department: Economics
Name of the Course: Indian Economy- I

Scanned with CamScanner

Paper Code: ECC 105
Type of the Course: DSC
No. of Credits: 04
Semester: V
Class: TYBA
Course Objectives: To familiarizes students on the paradigm shifts and ground realities related to the Indian and Goan economy with special focus on the post reforms period.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECC 105.1.	**Identify** the main features of India at the time of independence.	CL1
ECC 105.2.	**Summarize** the important aspects of National Population Policy 2000.	CL2
ECC105.3.	**Show** the causes and effects of poverty, inequality and unemployment.	CL3
ECC105.4.	**Analyze** the various aspects of Goan Economy like demographics, industrial sector, service sector and agriculture sector.	CL4

Name of the Department: Economics
Name of the Course: Indian Economy- II
Paper Code: ECC 106
Type of the Course: DSC
No. of Credits: 04
Semester: VI
Class: TYBA
Course Objectives: To provide an overview on the policies and outcomes related to the Indian economy with special focus on the post-reforms period.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECC 106.1.	**Identify** the importance of agriculture and industry to the Indian economy.	CL1
ECC 106.2.	**Summarize** the differences between the different sectors of the economy.	CL2
ECC106.3.	**Illustrate** the performance of the three sectors separately in Indian economy.	CL3
ECC106.4.	**Breakdown** the different aspects of service sector with respect to India .	CL4

Name of the Department: Economics
Name of the Course: Public Finance I
Paper Code: ECD 107
No. of Credits: 04
Semester: V
Class: TYBA
Course Objectives: To introduce students to the preparation of the budget and its role in macroeconomic management and to expose them to the financial transfer between different tiers of the government in the Indian context.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECD 107.1.	**Memorize** the nature and scope of Public Finance.	CL1
ECD 107.2.	**Explain** the objectives of Fiscal Policy.	CL2
ECD 107.3.	**Choose**between different types of budgeting techniques.	CL3
ECD 107.4.	**Demonstrate** the budgetary process in India.	CL4

Name of the Department: Economics
Name of the Course: Public Finance II
Paper Code: ECD 108
No. of Credits: 04
Semester: V
Class: TYBA
Course Objective: To introduce students the role of revenue and expenditure in macroeconomic management.
Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
ECD 108.1.	**Identify** the tax and non-tax sources of revenue	CL1
ECD 108.2.	**Differentiate** between direct and indirect taxes.	CL2
ECD 108.3.	**Illustrate** the different taxes in the Indian economy.	CL3
ECD 108.4.	Measure/estimate the public debts and public expenditure of the Indian economy.	CL4

Name of the Department: Economics
Name of the Course: International Economics-I
Type of the Course: General ECD 109
Semester: V
Class: T.Y.B.A
Course Objectives: To provide the students theoretical background to understand the functioning of the global economy.
Course Outcomes: At the end of the course students will able to:

Scanned with CamScanner

Course Code	Course outcomes	Course Level (C.L) Bloom's Taxonomy
ECC 109.1.	**Explain** the international trade theories	CL1
ECC 109.2.	**Analyse** the impact of International trade on economy.	CL2
ECC 109.3.	**Explain** the different types of trade barriers with example.	CL3
ECC 109.4.	**Discuss** the importance of globalization.	CL4

B.COM. COURSE OUTCOMES

Name of the Department: Economics
Name of the Course: Microeconomics
Paper Code: CEC101
Type of the Course: CC3
No. of Credits: 04
Semester:I
Class: FYBCOM
Course Objectives:

1. To acquaint the students with the concepts of microeconomics dealing with Consumer demand and consumer behaviour.
2. To make the student understand the supply side of the market through the production and cost behaviour of firms.
3. To make the student understand different types of market and levels of competition prevailing in the market
4. To familiarize the students with different types of market imperfections and strategies adopted by firms in the imperfect market.

	strategies by firms and industry under different market structures	

Name of the Department: Economics
Name of the Course: Managerial Economics
Paper Code: CEC102
Type of the Course: CC7
No. of Credits: 04
Semester: II
Class: FYBCOM
Course Objectives: The basic objective of this course is to familiarize the students with the approach, concepts and advanced techniques of managerial economics that are applied in business decision making.

Course Outcomes: At the end of the course students will able to:

Course Code	Course Outcomes	Course Level (C.L.) Bloom's Taxonomy
CEC102.1.	**Identify** the approaches, concepts and advanced techniques of managerial economics that are applied in business decision making.	CL1
CEC102.2.	**Demonstrate** different managerial techniques applied in business decision making .	CL2
CEC102.3.	**Apply** and **interpret** different techniques of business decision making like pricing policies, budgeting, profit analyses and investment decision making under risk and uncertainty.	CL3
CEC102.4.	**Analyze** different business decision like pricing policies, profit analyses, capital budgeting and costing and decision making under risk and uncertainty.	CL 4

Name of the Department: Economics
Name of the Course: Economics of Resources
Paper Code:
Type of the Course: GE 4
No. of Credits: 04
Semester: III
Class: SYBCOM
Course Objectives:

1. To familiarize the students with concepts and issues in the realm environmental economics and sustainable development.
2. To introduce the students to economics of resources and their use against the background of growing global concerns over the future of the world economy due to the rapid depletion of natural resources.

Scanned with CamScanner

3. To help the students understand the significance of the management of environment and resources for business.
4. To introduce the students to the economics of human resource development.

Course Outcomes: At the end of the course students will able to:

Course Code	Course outcomes	Course Level (C.L) Bloom's Taxonomy
CEG 101.1.	**Identify** the different cost and benefits of production and consumption.	CL1
CEG 101.2.	**Evaluating** the market approach to environment problems.	CL2
CEG 101.3.	**Explain** the direct and indirect benefits of education.	CL3
CEG 101.4.	**Distinguish** between types of resources.	CL4

Name of the Department: Economics
Name of the Course: Indian Economy
Paper Code:
Type of the Course: GE 6
No. of Credits: 04
Semester: IV
Class: SYBCOM
Course Objectives:

1. To enable the students to grasp the current economic problems in India.
2. To highlight the important economic sectors and challenges faced by them in the recent years.
3. To acquaint students with the major policy regimes of government to resolve problems in agriculture, industry and service sector of India.
4. To enable students to understand the change in policy focus from central planning to process of market integration of the Indian Economy with other markets in the world.

Course Outcomes: At the end of the course students will able to:

Course Code	Course outcomes	Course Level (C.L) Bloom's Taxonomy
CEG 104.1.	**Identify** the different sources of agriculture finance in India	CL1
CEG 104.2.	**Understanding** the present features of Indian economy.	CL2
CEG 104.3.	**Explain** the composition of Indian agriculture, industry & service sector.	CL3
CEG 104.4.	**Differentiate** between economic growth & economic development.	CL4
